Call: (905) 681-1140

Truck & Coach Technician

YMCA Employment & Training Services is pleased to offer a Pre-Apprenticeship Training Program to encourage participants to enter into the trade of Truck and Coach Technician.

Pre-apprentices will have the opportunity to develop job-specific skills while working with a licensed Truck and Coach Technician and obtain a Level 1 college level training at Mohawk College as required by the Provincial Apprenticeship Training Standards.

Pre-apprentices will also have the opportunity to have exposure to the trade of Autobody Technician during a one week in class session at Mohawk College to experience an alternative option for employment within the Motive Power trades.

PROGRAM DURATION

Approximately 12 months including orientation period, work experience and in class instruction.

WORK DESCRIPTION

A Truck and Coach Technician is a person who:

- Detects and diagnoses operating problems in frames and steering mechanisms, engines, transmissions, brakes, ignition, axles, fuel systems, engine management systems, suspension systems, electrical/electronic systems, emission control systems, and air conditioning refrigeration systems.
- Adjusts, overhauls, repairs and reassembles engines, transmissions, clutches, rear ends, differentials, brakes, drive shafts, axles and other assemblies.
- Uses various diagnostic equipment to diagnose and isolate faults.
- Keeps up to date on advances in technology and updates present skills.
- Communicates effectively with co-workers, customers, and service managers.
- Reads and interprets owner/operator/manufacture operating manuals and service specifications.

QUALIFICATIONS

- Willing to work and go to school in the Hamilton or Halton area.
- Grade 12 or equivalent.
- Mechanical aptitude and interested in committing to the apprenticeship training.
- Must have a Valid Class "G" license, able to obtain a driver's abstract, and access to a vehicle.
- In class component is offered in person at Mohawk College on the Stoney Creek campus.
